

MedStar Health

Clinical Group Request Calendar.

The following dates are suggested for RN and LPN clinical group requests only at all MedStar facilities except MWHC. All RN and LPN clinical group requests are submitted through InPlace.

Summer 2024

February 14th	Requests open for all partners
February 28th	Requests do not "close" in InPlace, but we know many schools aim to have requests in by this date.
March 13th	MedStar Health will aim to respond to requests submitted in February by March 13th, and for requests submitted later, we will aim to respond within 3-4 weeks from when request was made.
April 3rd	To free up unused placements, reject published placements or withdraw previously accepted ones in InPlace by April 3rd. If you need to change placement dates, inform us. Accurate InPlace data helps us manage capacity and potentially assist other schools/students.
3-4 weeks before placement start	Please add instructor and student names to remaining placements at least 3-4 weeks before the placement starts to allow enough time to complete and review onboarding requirements.
2 weeks before placement start	Onboarding requirements should be complete and school-reviewed no less than 2 weeks prior to placement start date to avoid any delays.

Fall 2024

March 27th	Requests open for all partners
April 10th	Requests do not "close" in InPlace, but we know many schools aim to have requests in by this date.
May 1st	MedStar Health will aim to respond to requests submitted before April 10th by May 1st. For requests submitted later, we will aim to respond within 3-4 weeks from when request was made.
June 17th	To free up unused placements, reject published placements or withdraw previously accepted ones in InPlace by June 17th. If you need to change placement dates, inform us. Accurate InPlace data helps us manage capacity and potentially assist other schools/students.
3-4 weeks before placement start	Please add instructor and student names to remaining placements at least 3-4 weeks before the placement starts to allow enough time to complete and review onboarding requirements.
2 weeks before placement start	Onboarding requirements should be complete and school-reviewed no less than 2 weeks prior to placement start date to avoid any delays.

It's how we **treat people.**
